Can You Walk Through A Sheet of Paper?

Yes. You can!

Materials:
A sheet of copy paper (or any sheet of paper)
Scissors
Tape (in case of accidents)

1. Lay the sheet of paper out horizontally (landscape orientation).

2. Fold the paper in half from the bottom to the top with the folded edge toward you.

3. From the folded edge, make two cuts (one at each end of the paper) towards the opposite side. Be careful NOT to cut all the way across the paper.

4. Now cut along the folded edge between the two cuts made in step 3.

5. Cut more slits from the folded edge each about 1 inch apart between the two cuts made in step 3.

6. Cut slits from the top edge in between the cuts made on the folded edge. Be careful NOT to cut all the way across the paper.

7. Open up the paper and, be careful not to tear it as you open it. You should have a loop that is large enough for you to walk through.
Magician Tag

This is a version of freeze tag.
The players run freely about trying to avoid being tagged by “It” who is the “magician.”

When tagged, a player must stop instantly and may not move unless freed from the “spell” by being touched by a free player, after which he may rejoin the game and try to free other players.

The aim of the “magician” is to render all the players inactive or frozen.
